Visiun Hosts Test Utilization Master Class at 20th Annual Executive War College

Can Real-Time Dashboards Improve Lab Test Utilization? A National and Regional Look at Fresh Data

Ann Arbor, Michigan – April 23, 2015 – Visiun, Inc., the leader in performance analytics for the laboratory, is pleased to host a presentation at the 20th Annual Executive War College Conference in New Orleans on Tuesday, May 5, from 7:00 AM – 7:50 AM. The session, titled ‘*Can Real-Time Dashboards Improve Lab Test Utilization? A National and Regional Look at Fresh Data*’, will include an analysis of industry data, highlighting the scale of opportunities for laboratories to reduce unnecessary, non-reimbursed testing.

The discussion will uncover the power of data from the laboratory and what changes are driving the review of test utilization practices. The presentation will provide an in-depth look into the variety of approaches health systems have to control utilization and how analytics are driving improved utilization practices in the laboratory.

Speakers Thomas Joseph, President and CEO of Visiun, along with Denis Burke, Chief Technology Officer of Visiun, will host the presentation and offer real solutions for laboratories to reduce unnecessary, non-reimbursed testing and improve the health system’s bottom line.

If you are not attending Executive War College but would like additional information on this presentation or on Visiun’s comprehensive suite of performance analytics tools, please contact Tim Bickley, tim.bickley@visiun.com or 786-351-4805.
